

Name: _____

Date: _____

1. Match the bird to its habitat:

**There is more than one right answer!*

Double-Crested Cormorant

Mountain Forest

Black-headed Grosbeak

Wetlands

Mallard

Mud Flats

Hairy Woodpecker

City Park

White-faced Ibis

Open Water

2. Choose two birds from the list above and describe how their adaptations help them survive in their habitat. Make sure to include specific examples.

3. Draw the bird beak that would be best suited to crack open seeds:
